Thanks Andrew. We will very likely need your help sometime in the future.

Hey dude. Just talked to Sherry and it sounds like you've got your hands full down there.

Let me know if / when I can be helpful in evaluating fish impact. From the looks of it, I am not super optimistic. Sounds like Thomas is headed out to put in STICs and MiniSippers on Thursday.

Hope to still see you this next weekend, but will understand if'n you are absent. If you do make it, I will provide enough beer for you to forget this past week...
